Technical Skills
- **Languages & Frameworks:** HTML, CSS, Tailwind CSS, JavaScript, React
- **APIs:** RESTful APIs
- **Tools & Platforms:** Git, GitHub, Figma, Canva

Soft Skills
- Time Management
- Creativity
- Communication Skills

PROJECTS

Personal Portfolio Website ⧉
- **Technologies:** HTML, CSS, JavaScript
- Designed and built a responsive personal portfolio to showcase projects, skills, and contact information.
- Implemented smooth navigation and section-based layout using vanilla JavaScript.Optimized for accessibility, performance, and cross-device compatibility.

EmoTracker – Daily Mood Journal App ⧉
- **Technologies:** React, CSS, React Router
- Developed a mood tracking app where users can select emotions and write daily notes.
- Used React state and routing to navigate between pages and display mood entries by date.Designed a responsive, clean interface for a smooth user experience on all devices.

Serenity Breathing Practice Website ⧉
- **Technologies:** HTML, CSS, JavaScript
- Created a guided-breathing web app with synchronized animations, relaxing music and calming UI.
- Used vanilla JavaScript for DOM manipulation, UI transitions, and timed breathing cycles.Designed to promote mindfulness and stress relief through an intuitive, user-friendly interface.

Interactive Portfolio Website, *Figma, Framer (no-code), Responsive Design* ⧉
- Worked directly with a client to design high-fidelity UI/UX prototypes in **Figma**, focusing on visual hierarchy, brand styling, and clear user flows.
- Brought the designs to life in **Framer**, building interactive, fully **responsive** layouts with reusable components, animations, and breakpoints for mobile, tablet, and desktop.
